1961 Corvette Duntov Convertible, two tops with RPO-687, 283-315 hp, fuel injected 4-speed numbers matching motor, transmission and rear end. Roman **Red** paint with Red matching interior and White soft top.

Body-off restored in show condition. These type restorations normally cost between $125,000.00 to $175,000.00. Multiple NCRS awards including Regional Performance Verification (P.V.) and the NCRS Duntov Mark of Excellence award. The expenses involved in obtaining these awards could surely exceed $20,000.00.

The RPO-687 is super rare as only 223 were produced which includes heavy duty shocks, finned brake drums, metallic brakes, air scoops, deflectors, vented backing plates, cooling fans, large diameter sway bars, quick steering adaptor and the rear end stamp indicates with heavy duty brakes and suspension. Optioned with T-10 transmission, 4.11 posi with heavy duty brakes and suspension, special heavy duty brakes, heavy duty suspension, Wonderbar radio, fuel injection, off road exhaust, sunvisors, windshield washers, courtesy light, heater, 5-1/2" wide wheels, dog dish hubcaps and 6.70x15" blackwall tires.

Most all factory correct type components including the spare, jack, jack tools, trunk mat, trunk liner, taillight cones, rebound straps, shocks, seat belts, shifter, shielding, air cleaner, generator, distributor, spark plug shields, hoses, hose clamps, window glass, valve covers, F.I. unit, F.I. fuel filter, starter, gas cap, expansion tank, radiator, guide Y-50 mirror, warranty book, owners manual, sales brochure, and T-3 headlights. Documented with the NCRS Confirmation of Awards, NCRS certificates, most NCRS judging sheets, owners manual packet and 3-ring binder. From the past owner of 11 years with copy of title.

FUN FACTS (RPO-684 and RPO-687 production versus total production): 1957 RPO-684 = 51 produced of 6,339 total production, 1958 RPO-684 = 144 produced of 9,168 total production, 1959 RPO-684 = 142 produced of 9,670 total production, 1960 RPO-687 = 119 produced of 10,261 total production, 1961 RPO-687 = 233 produced of 10,939 total production, 1962 RPO-687 = 246 produced of 14,531 total production. *This illustrates that the RPO-684/RPO-687 option was only produced on approximately 1-1/2% of the total production of the 60,908 Corvettes produced from 1957 to 1962*.

Rare? Yes, rare indeed!!! Looks, runs and drives excellent. Stk. 1020T

Q: What is a CCAS Affirmation?...
[wrap text]

A: It is an evaluation program covering basic fundamentals of 1963 to 1972 classic Corvettes:

(1) The engine casting and stamped numbers
(2) The Trim/Body tag
(3) Protect-O-Plate (Chevrolet warranty plate)
(4) Certain documentation

CCAS applies a United States patented procedure in conjunction with a massive Corvette engine pad database (*master library)*. It is the application of objective, fundamental research information for identifying legitimacy of engines.

Overall, it is a non-personal, objective, scientifically based approach that is brought to bear in areas that have been at the mercy of subjectivity and opinion.

What Is My Corvette Worth? I get asked this question almost everyday. The value of a Corvette is directly related to venue, location, day, and time of day if offered at auction. High profile collector car auctions offer maximum exposure and hundreds or thousands of affluent "ready to spend" registered bidders that like the auction excitement and instant gratification of making a purchase and thus outbidding others. **In essence they are the winner!**

Auctions create urgency and unless bidders are prepared to bid that car is sold within 2 to 3 minutes.

No two auctions or auction venues (locations) will produce the same results. **"It is a crap shoot!"**

I have participated as both buyer and seller at most of the classic car auctions in the USA for over 40 years and know the process well.

Contact terry@proteamcorvette.com should you have a rare Corvette or Corvette collection and need advice as it relates to estate planning, estate resolution/liquidation as it relates to auctions and/or our outright purchase.

Industry Awards... are normally awarded to a person for exceeding a quality standard but in our case, it is about the person (or people), the product (our cars) and the presentation which requires knowledge. ProTeam's Corvettes achieved close to 200 show awards and invitationals since 2009. Click to enlarge any photo to view the results of ProTeam's team effort. I doubt there is another person or company that has even come close to our record and in 2013; we added a new award only received by a total of 36 participants, "The NCRS American Heritage Award". In June 2014, Terry Michaelis was inducted into the Bloomington Gold Great Hall honoring the 50 most significant and influential people and organizations.

The standard is set by the various judging venues, ie: Bloomington Gold, NCRS, MCACN, and the Concours D'elegances scattered around the USA. It takes knowledge, preparation, and presentation to compete in these show venues. ProTeam's small group of employees possess that knowledge which should add additional value and a comfort level that you **cannot** and **will not** get from any other Corvette seller or reseller. POINT MADE! Think about it and Click Here to view the text file of our impressive show results. Comments or questions? Email: terry@proteamcorvette.com
